

1. Extract the zip file to a folder
2. Get into the “react-app” folder, open it via CMD tool
3. Run “npm install”, waiting for the install finished
4. Run “npm start”

A screenshot of a Windows Command Prompt window titled "MINGW64:/c/wwwroot/CountryPlay.Web/react-app". The prompt shows the user "XUZI@SHAL100100" in a "MINGW64" environment. The command "\$ npm install" has been entered and is highlighted with a red box. The output shows a warning message: "npm WARN deprecated source-map-resolve@0.6.0: See https://github.com/lydell/source-map-resolve#deprecated".

```
MINGW64:/c/wwwroot/CountryPlay.Web/react-app
XUZI@SHAL100100 MINGW64 /c/wwwroot/CountryPlay.Web/react-app
$ npm install
npm WARN deprecated source-map-resolve@0.6.0: See https://github.com/lydell/source-map-resolve#deprecated
```

A screenshot of a Windows Command Prompt window showing the output of the previous command. It includes several notices from npm, such as "Run 'npm audit' for details.", "npm notice", and "New minor version of npm available! 8.7.0 -> 8.12.1". The command "\$ npm start" has been entered and is highlighted with a red box.

```
Run `npm audit` for details.
npm notice
npm notice New minor version of npm available! 8.7.0 -> 8.12.1
npm notice Changelog: <https://github.com/npm/cli/releases/tag/v8.12.1>
npm notice Run `npm install -g npm@8.12.1` to update!
npm notice
XUZI@SHAL100100 MINGW64 /c/wwwroot/CountryPlay.Web/react-app
$ npm start
```

Then you should be able to view it .
